Subject: Operational details re: protest deployment

(on behalf of Dave)

DEMS, sharing further details on our involvement in enforcement operations over the next few days

Enforcement Scope

- Routine MTO enforcement operations may continue until staff are called upon for protest-related duties
 - Traffic enforcement, patrol, triage, inspections, etc.
 - Maintaining a visible presence on the highway and ensuring operational readiness for immediate deployment when needed
 - Training as scheduled
- Regular duty-related exercises do not need to be reported, such as assisting police at a non-protest related incident (collision, etc.)
- Officers are to continue to follow the Directive 22-01 which went out earlier today, to not engage the convoy/protesters
 - If this position changes it will be communicated in an updated Directive, communicated by Dave, Parm or CEPO

Protest Related Duties

- Requests for assistance related to the protest will come from OPP command staff only
- As long as it is OPP providing guidance on where to be, we assume this is approved; the request may come in several forms:
 - Provincial requests will come from Provincial EOC
 - These will include larger scale requests including geographic redeployment, large scale activity, etc.
 - Regional requests may come to RMs and DEMs directly from Region EOCs
 - These may include local road closures, initiatives, request for assistance within the district, etc.
 - Immediate requests to officers in the field may come directly by radio or cell phone from local OPP dispatcher
 - This will be limited to localized, single officer requests
 - If received, officers are to acknowledge, follow OPP direction and notify their DEM immediately for reporting and tracking purposes
- Upon any of the above activations, please ensure DEMs, RM and CEPO are advised
- Any other requests for assistance from other police services (in relation to protest / convoy) must be sent and approved by OPP command staff.

Upon deployment, officers must track the following in their notebooks:

- **Mission Statement** – High level goal – ex: traffic control, protect officer safety
- **Situation** – What is happening, why am I here, what is my role/scope? *Important to be clear on the ask by your on the ground OPP IC.
- **Time in / Time out of deployment**
- **Location(s) during deployment**
- **Expenses accrued during these events** – listed expenses and note the cost center CIEB 1 - 027 270301 2391 944202 - D

Reporting and Administration

- OPP requires our scheduling information as part of the larger picture as they track all their resources which now include our officers

- It is imperative districts and regions track who is working, the times they are working, what they are doing (scope), where they are working (Vicinity/area) and when they are done.
 - Schedules have been provided by all districts for February 10th, and in most cases through the weekend. Further instructions will be provided on maintaining updated schedules for a prolonged period.
 -
- Expenses related to protest deployment are being covered by OPP under a cost centre set up for this purpose
 - Expenses are to be pre-approved by DEM and must be inline with the Travel, Meal and Hospitality Directive
 - Eligible expenses are to be submitted to IFIS String: **CIEB 1 - 027 270301 2391 944202 – D**, Approver: David Mercanti

If any officer feels they are asked to do something that they should not be doing and/or is out of scope, they should inquire with their DEM / RM who can confirm the request with incident leads David Mercanti (CEPO), Kirk Richardson (OPP) or in their non-availability, Michael Rounding.
